

Make spoken language  
visible for your deaf child

## We can...

Help you to communicate with your deaf child.

Teach you how to use Cued Speech.

Provide family and parent support in your area.

Discuss information about deafness.

Provide support for school and medical meetings.

Help your child with language and learning.

Put you in touch with other parents who use Cued Speech.

Provide online support.

“Of all the support and methods we have used over the years - the interpreters, the communication support workers, the visual phonics. It is Cued Speech that has had the biggest impact on the educational achievement of our deaf students”.  
Sarah Bradley, Teacher of the Deaf

“The charity Cued Speech is imperative to M’s learning and her journey as she grows up. There’s no way that she could be in mainstream school, accessing the curriculum the same as all of her hearing peers, if she didn’t have access to Cued Speech” Mrs Down, mother

# You can use Cued Speech...

From birth.

With hearing aids to clarify all the sounds of speech.

Before your child has implants.

After implants to support rehabilitation.

At school to support reading, writing and all areas of learning.

At home to learn the same language as the rest of the family.

At school to support the learning of additional languages.

Bilingually with British Sign Language.

## Let's see what you're saying...

Cued Speech uses 8 hand shapes in 4 positions near the mouth. You Cue as you speak, so that your deaf child can see all the hidden sounds that you're saying and then they'll be able to learn your language. You can learn the basics in no time and you'll soon be able to Cue any word you like. Practice makes perfect — so lets get started today!
